1 After your login in to Moodle, go to the **My Courses** folder.

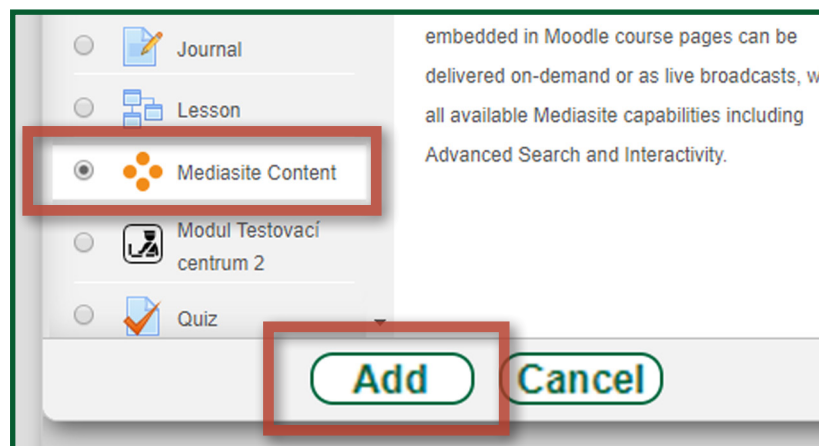

2 Turn on **editing mode** in My Courses folder.

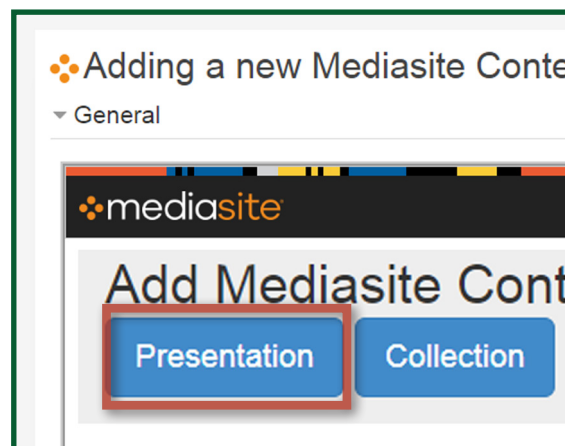

3 Select a new topic and select **Add an Activity or resource**.

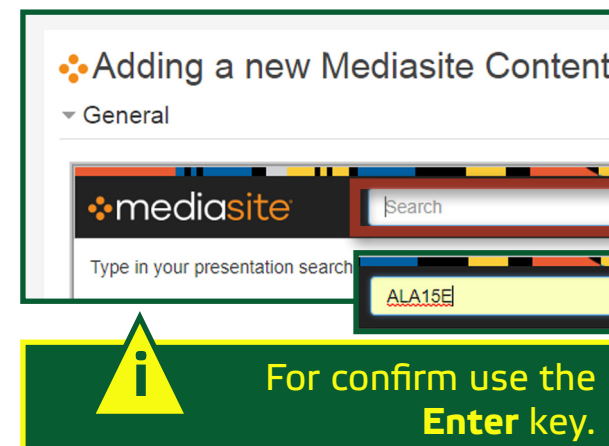

4 From the activity menu, select **Mediasite Content** and confirm with **Add**.

5 Select the **Presentation** option.

6 Enter the desired **item code** in the top right corner.

7 Now you will be able to see a list of the corresponding lectures from which you can select.

8 Choose from the format of the video browser – the most often used **Abstract + player**.

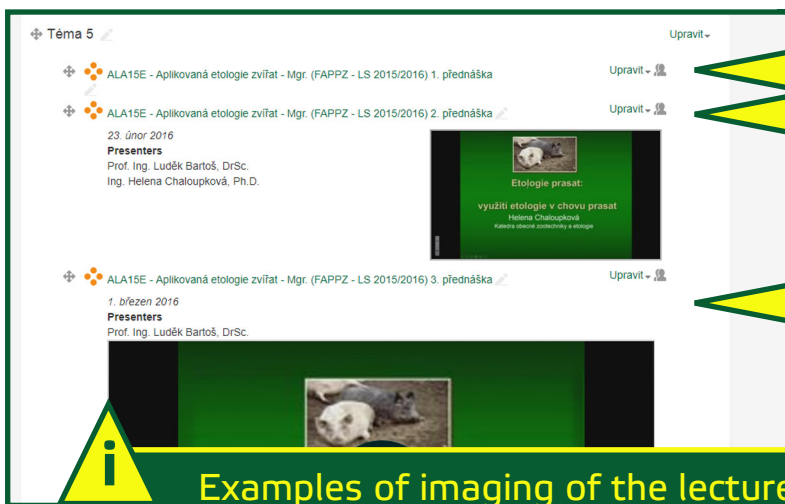

9 The following dialog box lets you change the name of the pre-filled lecture name.

10 Confirm with the **Save and return to course**.

Lecture is now ready to be viewed by the student.

Examples of imaging of the lecture in the course.

„Presentation Link“
„Abstract Only“
(„Thumbnail“ the same as A.O., without presenters name)
„Abstract + Player“
